Topic

Medical Scientists in Cardiovascular Research: contents, structures, challenges, needs

Programme committee

Peter Kohl, Nicolle Kränkel, Christoph Maack,
Renate Schnabel, Katrin Streckfuß-Bömeke,
Laura Zelarayan

KEK, DGK Commission for
Experimental Cardiovascular Medicine

Aims and learning objective

- Identification of gaps in education (Early) and training concepts (Advanced) for Medical Scientists
- Identification of career paths and existing / missing concepts and support structures for Medical Scientists
- Establishment of a core curriculum for Medical Scientists in Cardiovascular Research

Outcome

Position paper

Format

- Experts provide short talks (15 min + 10 min) as a basis for discussion
- Each of the sessions will finish with a brief round table discussion
- The day ends with a plenary discussion and joint statement, as well as the assignment of writing tasks for a position paper
